**Using your intranet to run from the WebAdvantage Suite Option will allow many different scenarios for organizations. Integrated with all of your print queues the Suite can be logged into by users, allowing them to Print Via the Web, View their print job metrics and choose to print, delete, or even pay for print jobs from a web based interface.**

This fully integrated web product, which ties into Windows print queue functionality

whilst fully supported by Print Manager Plus metrics gives you full control and added value in any printing environment.

Using your intranet to run from, the WebAdvantage Suite working with Print Manager Plus will allow many different scenarios for Schools, Libraries, Healthcare, Insurance, Government and Corporate customers.

The product install is easy and fast taking advantage of all Windows has to offer, we do the work for you, fully setting up IIS and preparing the machine so the software can be used immediately.

The Administrative interface can be used to set user rules and permissions so that your end users can start printing files via the web using our driverless printing technology or just allowing the user to login and view his print jobs or account balance, and adding credits or releasing print jobs themselves through an online cashier.

The product is an easy alternative

compared to more expensive hardware accessorized products that require long installation wait times, and services that are cost prohibitive by any means. If the initial sticker shock doesn't bother you then the yearly maintenance costs will!

That is why we built this product to give you an inexpensive, but thoroughly integrated software only product, using the latest in web technology. The ROI while using this with Print Manager Plus is very fast, and further use just adds money to your budget, so don't wait, download a fully functional evaluation and try it for your organization today, or call us, and one of our experts will walk you through the setup.

At Print Manager, we believe in great technology. We believe great technology can and should delight people. And we believe in going the extra mile for our users and making the perfect product. We hate waste and the negative effects on our environment, which comes from a printer industry geared to sell you more paper, more ink and more printers. They are not incented to give you control over this waste, but we are. We believe that great technology can put IT in control of waste and let you get on with your job.
